PROJECTS

[My Portfolio Website ↗](#)
Oct 2025

Project Overview
This portfolio website demonstrates my expertise in front-end development with a focus on responsive design, smooth animations, and user experience. The site is fully responsive across all devices and includes interactive elements that showcase my technical skills.
Project Name: Personal Portfolio Website
Developer: Sufal Thakre
Technology Stack: HTML5, TailwindCSS, JavaScript
Project Type: Responsive Single-Page Application

[Google Clone ↗](#)
Sep 2025

Built a clone of Google's homepage using HTML and Tailwind CSS. Practiced layout design,
utility-first styling, and responsive alignment.

[Portfolio UI ↗](#)
Mar 2025 - Jul 2025

A sleek, modern portfolio website built with HTML, CSS, and JavaScript. This project demonstrates front-end development skills through clean design, interactive elements, and smooth animations. It's a clone inspired by professional portfolios, featuring sections for hero/intro, skills/projects/certifications, about me, subscribe, and footer. Perfect for showcasing as a personal site or resume piece.
