PROJECTS

[CareOps - Unified Business Operations Platform ↗](#)

Jan 2026 - Feb 2026

Built a full-stack SaaS platform that unifies bookings, CRM, inbox, forms, and inventory into one system for service businesses. Features real-time notifications via Socket.io, automated email workflows, Google Calendar sync, and role-based staff management.

GitHub link <https://github.com/Sufalthakre18/careops-platform>

Next.js 14 • TypeScript • Node.js • Express • PostgreSQL • Prisma • Socket.io • Resend • Tailwind CSS • Vercel • Render

[GigFlow - Freelance Marketplace Platform ↗](#)

Jan 2026

Built a full-stack freelance marketplace with React, Node.js, MongoDB, featuring JWT auth, bidding system, and atomic hiring using MongoDB transactions with real-time notifications.

GitHub Link :- <https://github.com/Sufalthakre18/gigflow-fullstack-marketplace>

[Therapeutic Practice Website | Next.js + Tailwind CSS ↗](#)

Dec 2025 - Jan 2026

Developed a production-ready clinical psychologist website with Next.js 15 and TypeScript. Features include component architecture, SEO optimization, scroll-triggered animations, and full mobile responsiveness. Deployed on Vercel.

GitHub:- <https://github.com/Sufalthakre18/growmytherapy-frontend-website>

[Weather Forecast Application ↗](#)

Nov 2025

- Github Link :- <https://github.com/Sufalthakre18/weather-forecast-application>
- Developed a real-time weather forecast application with a user-focused interface, offering location-specific weather updates.
- Asynchronous API requests were implemented to fetch weather data and dynamically update current and future conditions on the DOM.
- JavaScript was used to design the application responsively, ensuring a uniform and efficient user experience across device environments.

SKILLS

- | | | |
|--------------------------------|---------------------------|-------------------|
| • JavaScript | • CSS | • Node.js |
| • Express.js | • Python | • Tailwind CSS |
| • GitHub | • Next.js | • TypeScript |
| • English Proficiency (Spoken) | • Effective Communication | • Data Structures |
| • Postman | • REST API | • Cloudinary |
| • PostgreSQL | • React | • JWT |
| • Firebase | • Socket.IO | • Prisma ORM |
| • Vercel | • HTML 5 | |

EXTRA CURRICULAR ACTIVITIES

- Hackathon Participant | CareOps Platform Challenge | Feb 2026
Built a complete full-stack SaaS platform solo within a competitive hackathon deadline, demonstrating skills in rapid development, problem-solving, and AI-assisted coding under pressure.
~ organized by humanity founders

[Mastering DSA: Arrays, Searching & Sorting ↗](#)

Nov 2025 - Dec 2025

- Enhanced problem-solving capabilities through the application of efficient Data Structures algorithms.
- Dedicated efforts to learning arrays, and various sorting and search methodologies, applying insights in coding practices.

[Personal Portfolio Website ↗](#)

Sep 2025 - Oct 2025

Live Link :- <https://my-portfolio-pearl-xi-96.vercel.app>

Developed a personal portfolio website using HTML and CSS to professionally showcase my skills, projects, achievements, and contact information. The design was clean and responsive, ensuring a seamless user experience across various devices and screen sizes. I demonstrated strong front-end development skills by creating a visually appealing and well-structured layout that enhances my professional online presence. Additionally, I implemented effective navigation and UI elements to improve user interaction and accessibility for potential clients and employers.
